

TRILLION®

EFFECTIVE, ECONOMICAL WEED CONTROL FOR TURF, INCLUDING GOLF COURSES AND SOD FARMS.

CHALLENGE
Sod farms, golf courses and other turf growers struggle to find the right solution to tackle tough weed problems. Too many brands and products fall short of providing a winning combination of effective weed control at a great price.

NUFARM SOLUTION
Trillion® turf herbicide delivers the hard-hitting answer to tough turf weeds including dandelion, chickweed, plantain and creeping Charlie. The familiar Group 4 formulation provides the performance and price you need in easy-to-handle jugs or special order totes.

REGISTERED USES
Turfgrass including golf courses, sod farms, and municipal, industrial and residential turf

WEEDS CONTROLLED	APPLICATION RATES AND NOTES
Bedstraw	<p>TURF (OTHER THAN BENTGRASS): On established turf, apply at the rate of 60 mL per 100 m² in 10 L of water.</p> <p>For larger areas apply at the rate of 5.5 L per hectare in 300 L of water.</p> <p>FOR BENTGRASS: Apply at a half rate – 30 mL per 100 m² in May or late August and September. Use 20 L of water per 100 m².</p> <p>Slight yellowing will occur but will disappear after about 1 week.</p> <p>Do not overdose bentgrass as damage or kill may occur. Make sure correct rate is applied to the whole area treated.</p> <p>When spraying bentgrass use only a one nozzle sprayer. Make sure spray application does not overlap or excess material will be applied to overlapped areas and damage is more likely to occur.</p>
Black medic (yellow clover)	
Buttercup	
Chickweed	
Clover	
Daisy species (English and ground)	
Dandelion	
Devil's paint brush	
Ground ivy (creeping Charlie)	
Heal-all

PCP NO.	27972	WSSA GROUP	4
ACTIVE INGR	2,4-D (190 g a.e./L), mecoprop-p (100 g a.e./L), dicamba (18 g a.e./L)		
FORMULATION	liquid		
CHEM. FAMILY	phenoxy-carboxylic acid		
PACKAGE SIZE	2 x 10 L jug, 155 L drum, 1000 L tote one jug treats 4.5 acres (at 5.5 L/ha)		
RAINFAST	do not spray if rain is forecast		
APPLICATION / SEASON	up to two broadcast applications		
SURFACTANT NEEDED	no		

- BENEFITS**
- Consistent broad-spectrum control of tough annual and perennial turf weeds
 - Three-way active ingredient formulation provides strong take-down of the toughest weeds
 - Re-entry permitted once spray has thoroughly dried
 - Weed control formulated specifically for turfgrass
 - Excellent systemic control of emerged weeds
 - Non-residual control leaves options open
 - Convenient packaging options

- PERFORMANCE TIPS**
- For best results apply when weeds are growing quickly
 - If weed populations do not warrant a broadcast application, consider spot treatments that target only weedy areas
 - Grass seed can be safely sown 1 to 2 weeks after application at recommended rate
 - Do not water turf within 24 hours of application
 - Do not apply to newly seeded lawns until after third mowing
 - Do not freeze

- TIMING**
- May and early June, and late August and September
 - Apply when weeds are actively growing and not under stress
